Deliverable achievement confirmation.

Deliverable M.2.4 "Completion of the measurement on the (p,2p) fission induced reactions at GSI/FAIR" was accomplished on 31st of March 2021 when a dedicated experiment running at GSI/FAIR was successfully finalized. The figure shows in pictures some of the more relevant parts of the complex experimental setup used in the experiment. A detailed description of the experiment and the results obtained will be presented in the deliverable report D.2.14.
